Administrative Assistant - Intermediate	01020 Administrative Assistant	2015-4282, Revision No. 12, Date of Revision 12/26/2018
Administrative Assistant - Junior	01020 Administrative Assistant	2015-4282, Revision No. 12, Date of Revision 12/26/2018
Administrative Assistant - Senior	01020 Administrative Assistant	2015-4282, Revision No. 12, Date of Revision 12/26/2018
Material Handling Laborer - Intermediate	21050 - Material Handling Laborer	2015-4282, Revision No. 12, Date of Revision 12/26/2018
Material Handling Laborer - Junior	21050 - Material Handling Laborer	2015-4282, Revision No. 12, Date of Revision 12/26/2018
Technical Writer - Junior	30461 - Technical Writer I	2015-4282, Revision No. 1, Date of Revision 12/26/20182
Technical Writer - Intermediate	30462 - Technical Writer II	2015-4282, Revision No. 12, Date of Revision 12/26/2018

52.222-43 Fair Labor Standards Act and Service Contract Act Price Adjustment (Multiple Year and Option Contracts). Price adjustments for SCA-applicable labor categories shall be in accordance with clause 52.222-43 Fair Labor Standards Act and Service Contract Act Price Adjustment (Multiple Year and Option Contracts). When a modification is issued to all contract holders incorporating a revised index of wage determinations, contractors shall notify the contracting officer of any increase/decrease claimed under clause 52.222-43 within 30 calendar days after receipt of the modification.

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (\*\*) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).

### LABOR CATEGORY DESCRIPTIONS

*\*the same responsibilities, experience, and education requirements shown below apply to the labor categories with a Top-Secret Clearance*

#### **Administrative Assistant Senior**

Functional Responsibilities: Performs clerical duties such as filing, typing, records management, data entry and copying documents. Screens and transfers callers, arranges meetings to include associated resources and may handle travel. Distributes mail and maintains office supplies. A wide degree of creativity and latitude is expected.

Minimum Experience: 5 years of experience

Minimum Education: Bachelor's Degree

#### **Administrative Assistant - Junior**

Functional Responsibilities: Thorough knowledge of English grammar, syntax, spelling, punctuation, and abbreviation. Ability to execute assigned clerical tasks, to include administrative typing; and demonstrated knowledge of filing techniques. Duties may include preparing and editing technical or general documentation using various software packages such as Microsoft Word, Microsoft PowerPoint, Microsoft Excel and Windows, transcription of documents, data entry, and preparing and editing management support documentation such as PERT or GANTT charts in hard copy or using software such as Microsoft Project.

Minimum Experience: High School Diploma

Minimum Education: 0 years of experience

#### **Administrative Assistant - Intermediate**

Functional Responsibilities: Demonstrated experience in filing techniques, administrative typing, and using word processing equipment. Experience with computer graphics or computer terminals can be used as substitute for experience with word processing equipment. Duties may include preparing and editing technical or general documentation using various software packages such as Microsoft Word, Microsoft PowerPoint, Microsoft Excel and Windows, transcription of documents, data entry, and preparing and editing management support documentation such as PERT or GANTT charts in hard copy or using software such as Microsoft Project may also include performing a variety of support services such as visitor access control, answering telephones, receptionist, ordering and receiving office supplies and equipment, editing or maintaining technical, budget, programmatic and administrative documentation and references in both paper and electronic versions, preparing travel documentation and coordinating travel arrangements, operation of reproduction equipment to produce large volumes of documents, courier service and mail service, etc. May be required to interact with senior level managers such as high level military and civilian medical, health care and technical personnel

Minimum Experience: High School Diploma

Minimum Education: 0 years of experience

#### **Analyst - Intermediate**

Functional Responsibilities: The Contractor shall perform routine assignments on a range of tasks associated with the implementation of standard techniques, procedures and/or criteria as they apply to the technical or administrative aspects of the program or functional area. Uses information supplied to perform technical studies and analyses and prepare inputs to program documentation as it relates to that particular functional area; reviews final documents or data deliverables for completeness and conformity to requirements.

Minimum Experience: Bachelor's Degree

Minimum Education: 4 years of experience

#### **Bio-Medical Engineer Senior**

Functional Responsibilities: Designs, develops and provides safety testing, repair, and maintenance of biomedical equipment. Ensures that the biomedical equipment is in compliance with applicable regulatory requirements and quality control standards.

Minimum Experience: Bachelor's Degree

Minimum Education: 6 years of experience

**Business Process Reengineer Specialist – Junior**

Functional Responsibilities: Analyzes process and re-engineering, with an understanding of technical problems and solutions as they relate to the current and future business environment. Creates process change by integrating new processes with existing ones and communicating these changes to impacted Business Systems teams. Recommends and facilitates quality improvement efforts.

Minimum Experience: 2 year of experience

Minimum Education: Bachelor's Degree

**Business Process Consultant - Intermediate**

Functional Responsibilities: Analyzes process and re-engineering, with an understanding of technical problems and solutions as they relate to the current and future business environment. Creates process change by integrating new processes with existing ones and communicating these changes to impacted Business Systems teams. Recommends and facilitates quality improvement efforts.

Minimum Experience: 7 years of experience

Minimum Education: Bachelor's Degree

**Business Process Engineer – Senior**

Functional Responsibilities: Analyzes current business processes and engineering with an understanding of technical problems and solutions as it relates to current business environment. Develops methods to improve productivity and efficiency. Creates process change by integrating new processes and improving existing ones with goal of seamless overall improvement.

Minimum Experience: 12 years of experience

Minimum Education: Master's Degree

**Business Process Engineer - Intermediate**

Functional Responsibilities: Analyzes current business processes and engineering with an understanding of technical problems and solutions as it relates to current business environment. Develops methods to improve productivity and efficiency. Creates process change by integrating new processes and improving existing ones with goal of seamless overall improvement.

Minimum Experience: 5 years of experience

Minimum Education: Bachelor's Degree

**Clinical Outcomes Manager - Intermediate**

Functional Responsibilities: Manages collection and analysis of clinical outcomes data in order to develop clinical process improvement initiatives. Oversees staff that gathers data on performance metrics and facilitates the review of program effectiveness. Evaluates patient care data to ensure that care is provided in accordance with clinical guidelines and organizational standards. Provides input to strategic decisions that affect the functional area of responsibility. Capable of resolving escalated issues arising from operations and requiring coordination with other departments.

Minimum Experience: 7 years of experience

Minimum Education: Bachelor's Degree

**Communications Analyst – Junior**

Functional Responsibilities: Assists in the planning, design and implementation of communications networks. Conducts feasibility studies for large projects, develops requests for proposal, evaluates vendor products, and makes recommendations on selection. Provides guidance and training to less experienced analysts.

Minimum Experience: 2 year of experience

Minimum Education: Bachelor's Degree

**Consultant - Senior**

*Functional Responsibilities:* Provides process knowledge and problem-solving skills to project teams. Provides consultation on complex projects and is considered to be the top level contributor/specialist on processes such as implementation, business process improvement, re-engineering, quality improvement, and related management programs. Demonstrated experience and ability to apply multiple organizational, and management improvement techniques from government or commercial environments. Identifies best practices and applies change management, organizational development, activity and data modeling practices. Creates and assesses performance measurements. Communicates effectively orally or in writing. A wide degree of creativity and latitude is expected.

*Minimum Experience:* 5 years of experience

*Minimum Education:* Master's Degree

**Data Analyst – Junior**

*Functional Responsibilities:* Interprets data, analyze results using statistical techniques and provide ongoing reports for upper management. Develops and implement databases, data collection systems, data analytics and other strategies that optimize statistical efficiency and quality. Acquires data from primary or secondary data sources and maintain databases/data systems. Identifies, analyze, and interpret trends or patterns in complex data sets.

*Minimum Experience:* 1 year of experience

*Minimum Education:* Bachelor's Degree

**Data Analyst Senior**

*Functional Responsibilities:* Collects, analyzes, and evaluates data, and makes recommendations based on results. Develops processes to determine the effectiveness of current operational activities, examines problem areas, and develops solutions. Relies on extensive analytical skills to include mathematics and statistics to plan and accomplish goals. Must have demonstrated experience in the creation, storage, and retrieval of data in Air Force and Military Health Service systems commensurate with the area of expertise required by the Task Order. Must be familiar with a variety of Air Force Medical Service concepts, practices and procedures. A wide degree of creativity and latitude is expected.

*Minimum Experience:* 5 years of experience

*Minimum Education:* Master's Degree

**Database Administrator - Intermediate**

*Functional Responsibilities:* The Contractor shall apply knowledge of computer science concepts and techniques in the design, development, installation and maintenance of relational databases to satisfy engineering, scientific, or business data acquisition and management. Develops and maintains necessary public synonyms, data base links, and user access controls. Provides database tuning and monitoring to insure effective and efficient data access to include comparison of performance ratios, tuning of memory configuration, disk I/O, and application software. Design and maintenance of the physical layout of the databases and calculating disk space requirements for database tables and indexes. Responsible for segments or phases of broader, more complex projects

*Minimum Experience:* Bachelor's Degree

*Minimum Education:* 4 years of experience

**Database Administrator - Junior**

*Functional Responsibilities:* Assists with support of Oracle and MS SQL Server databases, including database design, performance tuning, database backup and restore, and database replication, and develop plans and procedures to support those activities. Support migrations from existing application versions to latest application versions including configuration. Performs requirements analysis, and query optimization and table normalization. Assist in the design of database tables, stored procedures, triggers, and queries.

*Minimum Experience:* Bachelor's Degree

*Minimum Education:* 1 years of experience

**Engineer Senior**

*Functional Responsibilities:* Design, develop, test, and evaluate integrated systems for managing production processes, including human work factors, quality control, inventory control, logistics and material flow, cost analysis, and production coordination. Perform engineering duties in designing, constructing, and testing. Degree in an engineering discipline related to the requirements identified in the Task Order. In addition, the individual shall be knowledgeable of Government regulations, manuals, technical orders, standards and industry publications related to the discipline required to perform the work on the Task Order.

*Minimum Experience:* 5 years of experience

*Minimum Education:* Master's Degree

**Executive Assistant Senior**

*Functional Responsibilities:* Relieves the executive of administrative type functions in order to increase the time an executive has available for executive level responsibilities. May handle a wide variety of situations and conflicts involving the clerical and administrative functions of the office. Responsible for confidential and time sensitive material. Prepares routine and advanced correspondence including letters, memoranda, and reports. Relies on experience and judgment to plan and accomplish goals. A wide degree of creativity and latitude is expected.

*Minimum Experience:* 5 years of experience

*Minimum Education:* Bachelor's Degree

**Financial Analyst Senior**

*Functional Responsibilities:* Detailed knowledge of the financial management, accounting, financial statement compilation and analysis, and budgeting areas. The FA shall define, formulate, and carry out appropriate financial analysis techniques and methodologies. Makes recommendations for budget allocations to ensure conformance to budgetary limits. Reviews operating budgets periodically in order to analyze trends affecting budget needs. Relies on extensive experience and judgment to plan and accomplish goals. An advanced degree or certification (e.g., CPA, CISA, CMA, CGFM) and other specialized training in the functional areas is required.

*Minimum Experience:* 5 years of experience

*Minimum Education:* Master's Degree

**Financial Manager – Junior**

*Functional Responsibilities:* Ability to understand general business operations and follow general financial guidelines and accounting rules. Under supervision, must be able to assess products and procedures for compliance with government standards and sound financial management principles. Ability to differentiate and work with various appropriations (e.g., O&M and Procurement). Ability to understand and comply with government standards, accounting principles, and system application standards. Maintains basic financial records and files. Prepares simple financial reports and routine presentations.

*Minimum Experience:* Bachelor's Degree

*Minimum Education:* 1 years of experience

**Functional Area Analyst - Junior**

*Functional Responsibilities:* Analysis of business, functional, technical, activities and events. Responsible for documenting and strategizing process improvements for current business processes. Provide market research on conditions that impact the overall operational efficiency of an organization and identifying symptoms for process improvement.

*Minimum Experience:* 2 year of experience

*Minimum Education:* Bachelor's Degree

**General Management Professional – Intermediate**

*Functional Responsibilities:* The contractor shall incorporate innovative management, operational, and financial techniques that result in increased productivity and sustained organizational growth. Ability to find solutions to a myriad of business issues and problems. Excellent oral and written communicator with exceptional interpersonal skills. Experienced with office suite of computer software applications

*Minimum Experience:* Bachelor's Degree

*Minimum Education:* 6 years of experience

**Health Care Administrator Expert**

*Functional Responsibilities:* Individual will conduct studies, analyze, plan, program, advise, and implement necessary corrective actions in support of one or more of the following medical activities as specified in task order requirements: facility management, materiel and services management, personnel administration, war and emergency planning and training, aeromedical evacuation, resource management, biometrics, health plan management, group practice management, health systems design, information management and technology, data systems design, research administration, and health services training and education. Makes recommendations on medical administrative processes to include operations, hospital accreditation programs, and business improvement processes.

*Minimum Experience:* 5 years of experience

*Minimum Education:* Doctorate Degree

**Help Desk Specialist**

*Functional Responsibilities:* The Contractor shall perform under general direction, provides support to end-users. Resolves escalated problems. Interacts with other operational entities, including, but not limited to: network services, software systems engineering, and/or applications development to restore service, and/or identify and correct core problem. Simulates or recreates user problems to resolve operating difficulties. Analyzes and recommends systems modifications to reduce user problems.

*Minimum Experience:* 0 years of experience

*Minimum Education:* Associate's Degree

**Information Assurance Engineer - Intermediate**

*Functional Responsibilities:* Demonstrated ability to develop technical solutions to support client requirements in solving moderately complex network, platform, and system security problems. Ability to apply activity and data modeling transaction flow analysis; internal control and risk analysis; modern business methods; and performance measurement techniques. Ability to assist in establishing standards for information system procedures. Ability to develop and apply organization-wide information models for use in designing and building integrated, shared software and database management systems. Ability to conduct secure system engineering and development, including system/security requirements analysis and secure system definition. Also may design test beds of advanced hardware and software solutions.

*Minimum Experience:* Bachelor's degree

*Minimum Education:* 4 years of experience

**Information Engineer – Junior**

*Functional Responsibilities:* Assists with the application of business process improvement practices to re-engineer methodologies/principles and business process modernization projects. Assists with the development and application of organization- wide information models for use in designing and building integrated, shared software and database management systems. Minimum of two years experience. It is desired that the contractor has experience in the Theater Enterprise Wide Logistics System (TEWLS) or Defense Medical Logistics Supply Support (DMLSS).

*Minimum Experience:* 2 years of experience

*Minimum Education:* Bachelor's Degree

**Instructional Designer/Developer – Intermediate**

*Functional Responsibilities:* Ability to analyze training requirements and design instructional material using the instructional system design methodology. Development of curriculum maps for large project needs, developing detailed course matrices, perform gap analysis to identify future training requirements. Advanced knowledge of multimedia technology, authoring tools, and evaluation tools and data analysis skills. Ability to manage large training projects.

*Minimum Experience:* 4 years of experience

*Minimum Education:* Bachelor's Degree

**Instructor Senior**

*Functional Responsibilities:* Delivers in-depth training programs and workshops to various entities. Monitors the effectiveness of training programs through individual or group performance results. Collects feedback on sessions from training recipients to use for future improvements to content and presentation. Develops new training program design and existing program enhancements including various forms of training aides such as lesson plans and training aids. Degree in a discipline related to the requirements identified in the Task Order and expert knowledge of the subject matter to be taught as identified in the task order as well as demonstrated executive-level course planning/development and presentation skills.

*Minimum Experience:* 5 years of experience

*Minimum Education:* Master's Degree

**Logistics Analyst - Junior**

*Functional Responsibilities:* The contractor shall enhance product workflow by analyzing and developing logistics plans that affect production, distribution, and inventory. Create and review procedures for distribution and inventory management to maximize customer satisfaction and minimize cost. Has knowledge of commonly-used concepts, practices, and procedures within a particular file. Rely on instructions and pre-established guidelines to perform the functions of the job. Work under immediate supervision. Primary job functions do not typically require exercising independent judgment. Typically reports to a supervisor or manager. It is desired that the contractor has experience in the Theater Enterprise Wide Logistics System (TEWLS) or Defense Medical Logistics Supply Support (DMLSS).

*Minimum Experience:* Associate degree

*Minimum Education:* 2 years of experience

**Logistics Analyst - Intermediate**

*Functional Responsibilities:* The contractor shall enhance product workflow by analyzing and developing logistics plans that affect production, distribution, and inventory. Create and review procedures for distribution and inventory management to maximize customer satisfaction and minimize cost. Familiar with standard concepts, practices, and procedures within a particular field. Rely on limited experience and judgment to plan and accomplish goals. Perform a variety of tasks. Works under general supervision, typically report to a supervisor or manager. A certain degree of creativity and latitude is required. It is desired that the contractor has experience in the Theater Enterprise Wide Logistics System (TEWLS) or Defense Medical Logistics Supply Support (DMLSS).

*Minimum Experience:* Associate degree

*Minimum Education:* 4 years of experience

**Logistics Analyst - Senior**

*Functional Responsibilities:* Plan, direct, or coordinate transportation, storage, or distribution activities in accordance with organizational policies and applicable government laws or regulations. The contractor shall enhance product workflow by analyzing and developing logistics plans that affect production, distribution, and inventory. Create and review procedures for distribution and inventory management to maximize customer satisfaction and minimize cost. May develop and supply optimal time, cost, or logistics networks for program evaluation, review, or implementation.

*Minimum Experience:* Associate degree

*Minimum Education:* 6 years of experience

**Logistics Analyst/Trainer - Senior**

**Functional Responsibilities:** The Contractor shall analyze, model, and optimize distribution networks using logistics software. This covers more than one of the following: location of sites, allocation of resources, inventory placement, and size, selection of transportation mode, freight consolidation, closed loop tours, dedicated opportunities, continuous moves, and intermodal. Collect, process, and maintain data for analysis. Implement, monitor and adjust solutions, working with the Operations Group. Interact with clients to understand their distribution network. Helps to establish and refine procedures for analysis. Shall perform routine assignments on a range of tasks associated with the implementation of standard techniques, procedures and/or criteria as they apply to the technical or administrative aspects of the program or functional area. Conducts the research necessary to develop and revise training courses. Develops and revises these courses and prepares instructor materials (course outline, background material, and training aids). Prepares student materials, (handouts, completion certificates, course critique forms). Trains personnel by conducting formal and informal classroom courses.

**Minimum Experience:** 4 years of experience

**Minimum Education:** Associate's Degree

**Logistics Analyst/Trainer - Expert**

**Functional Responsibilities:** Design and conduct training and development programs to improve individual and organizational performance. Plan, direct, or coordinate the training and development activities and staff of an organization. May analyze training needs to enhance product workflow by analyzing and developing logistics plans that affect production, distribution, and inventory. Create and review procedures for distribution and inventory management to maximize customer satisfaction and minimize cost.

**Minimum Experience:** 6 years of experience

**Minimum Education:** Associate's Degree

**Logistics Engineer – Intermediate**

**Functional Responsibilities:** The Contractor shall analyze, model, and optimize distribution networks using logistics software (TEWLS and DLMSS). This covers more than one of the following: location of sites, allocation of resources, inventory placement, and size, selection of transportation mode, freight consolidation, closed loop tours, dedicated opportunities, continuous moves, and intermodal. Collect process and maintain data for analysis. Implement, monitor and adjust solutions, working with the USAMMA personnel, OTSG staff and deploying units. Interact with clients to understand their logistics information distribution network. Helps to establish and refine procedures for analysis. Assist in validating the logistic data structure and its accuracy. Correct data structure errors. Improve automated logistics records management, application, data processing, data quality, and records configuration management.

**Minimum Experience:** Bachelor's Degree

**Minimum Education:** 4 years of experience

**Management Analyst - Intermediate**

**Functional Responsibilities:** Contractor shall possess an ability to assess and apply multiple organizational, and management improvement techniques in a government or commercial environment. Demonstrated ability to conduct and participate in formal and informal reviews at pre-determined points throughout the project life cycle. Demonstrated ability to analyze client needs to determine systems requirements as they apply to the client's management systems. Ability to review client requirements and participate in client problem-solving and in the recommendation process. Ability to identify best practices, effect re-engineering, change management, business management techniques, organizational development, activity. Ability to apply process improvement and re-engineering methodologies and principles

**Minimum Experience:** Bachelor's Degree

**Minimum Education:** 2 years of experience

### **Management Analyst - Senior**

*Functional Responsibilities:* The contractor shall be required to assess and apply multiple organizational, and management improvement techniques in a government or commercial environment. Demonstrated ability to conduct and participate in formal and informal reviews at pre-determined points throughout the project life cycle.

Demonstrated ability to analyze client needs to determine systems requirements as they apply to the client's management systems. Ability to review client requirements and participate in client problem-solving and in the recommendation process. Ability to identify best practices, effect re-engineering, change management, business management techniques, organizational development, activity. Ability to apply process improvement and re-engineering methodologies and principles.

*Minimum Experience:* Bachelor's Degree

*Minimum Education:* 4 years of experience

### **Material Handling Laborer - Junior**

*Functional Responsibilities:* Performs physical tasks to transport or store materials or merchandise. Duties involve one or more of the following: Manually loading or unloading freight cars, trucks, or other transporting devices; unpacking, shelving, or placing items in proper storage locations; or transporting goods by hand truck, cart, or wheelbarrow.

*Minimum Experience:* High School Diploma

*Minimum Education:* 0 years of experience

### **Material Handling Laborer - Intermediate**

*Functional Responsibilities:* Performs physical tasks to transport or store materials or merchandise. Duties involve one or more of the following: Manually loading or unloading freight cars, trucks, or other transporting devices; unpacking, shelving, or placing items in proper storage locations; or transporting goods by hand truck, cart, or wheelbarrow.

*Minimum Experience:* High School Diploma

*Minimum Education:* 2 years of experience

### **Performance Management/Metric Analyst - Junior**

*Functional Responsibilities:* Provides analytical management assistance by planning, coordinating and directing programs, conducting surveys and studies, and special projects. Performs responsible administrative research and analyses and provides recommendations. Conducts research and analytical studies as well as formulate recommendations and prepares reports and correspondence.

*Minimum Experience:* 2 year of experience

*Minimum Education:* Bachelor's Degree

### **Performance Management/Metric Analyst -Intermediate**

*Functional Responsibilities:* Provides analytical management assistance by planning, coordinating and directing programs, conducting surveys and studies, and special projects. Performs responsible administrative research and analyses and provides recommendations. Conducts research and analytical studies as well as formulate recommendations and prepares reports and correspondence.

*Minimum Experience:* 7 years of experience

*Minimum Education:* Bachelor's Degree

### **Performance Management/Metric Analyst Senior**

*Functional Responsibilities:* Provides analytical management assistance by planning, coordinating and directing programs, conducting surveys and studies, and special projects. Performs responsible administrative research and analyses and provides recommendations. Conducts research and analytical studies as well as formulate recommendations and prepares reports and correspondence.

*Minimum Experience:* 12 years of experience

*Minimum Education:* Master's Degree

**Program Manager - Junior**

*Functional Responsibilities:* The Contractor shall act as the lead, manager and administrator for the effort. Serves as the primary interface, point of contact and representative on technical and program/project issues. Supervises program/project operations by developing procedures, planning and directing execution of the technical, programming, maintenance and administrative support effort and monitoring and reporting progress. Manages financial and administrative aspects of the program/project with respect to contract requirements.

*Minimum Experience:* Bachelor's Degree

*Minimum Education:* 2 years of experience

**Program Manager - Intermediate**

*Functional Responsibilities:* Serves as the contractor's single contract manager, and shall be the contractor's authorized interface with the Government Contracting Officer (CO), the contract level Contracting Officer's Representative (COR), government management personnel and customer agency representatives. Responsible for formulating and enforcing work standards, assigning contractor schedules, reviewing work discrepancies, supervising contractor personnel and communicating policies, purposes, and goals of the organization to subordinates. Shall be responsible for the overall contract performance and shall not serve in any other capacity under this contract.

*Minimum Experience:* 7 years of experience

*Minimum Education:* Bachelor's Degree

**Program Manager – Senior**

*Functional Responsibilities:* The Contractor shall act as the lead, manager and administrator for the effort. Serves as the primary interface, point of contact and representative on technical and program/project issues. Supervises program/project operations by developing procedures, planning and directing execution of the technical, programming, maintenance and administrative support effort and monitoring and reporting progress. Manages financial and administrative aspects of the program/project with respect to contract requirements.

*Minimum Experience:* Bachelor's Degree

*Minimum Education:* 8 years of experience

**Project Manager - Advanced Technology - Junior**

*Functional Responsibilities:* Demonstrated experience and ability to oversee and orchestrate advanced technology system design, development, integration, testing, training, deployment, operation and/or maintenance efforts. Performs day-to-day management of assigned delivery order projects that involve teams of highly specialized technical professionals who are involved in analyzing, prototyping, designing, integrating, testing, documenting, converting, extending, and implementing automated information systems. Demonstrates proven skills in highly technical areas addressed by the delivery order to be managed. Organizes, directs, and coordinates the planning and production of all activities associated with assigned delivery order projects, including assessment of staff and expenditure of ODCs. Demonstrates writing and oral communication skills.

*Minimum Experience:* Bachelor's Degree

*Minimum Education:* 2 years of experience

**Project Manager - Advanced Technology - Intermediate**

*Functional Responsibilities:* The Contractor shall be responsible to the PM-Medical Devices (PM-MD) and the various Product Managers for coordinating and managing the processes and documentation requirements to meet medical device developmental project objectives. The contractor shall be responsible for coordination and management of meetings, schedules, documentation and liaison with external customers in the execution of requirements for reaching milestones and decision points in the developmental process. The contractor shall assist Product Managers in developing plans and processes for implementation and execution of fielding plans for mature medical devices.

*Minimum Experience:* Bachelor's Degree

*Minimum Education:* 4 years of experience

**Project Manager - Expert**

*Functional Responsibilities:* Responsible for the coordination and completion of projects. Sets deadlines, assigns responsibilities, and monitors and summarizes progress of projects. Organizes and manages the technical facets of multi-disciplined project tasks. Prepares reports for the Government regarding status of projects. Relies on extensive experience and judgment to plan and accomplish goals. Leads and manages the work of others. A wide degree of creativity and latitude is expected.

*Minimum Experience:* 5 years of experience

*Minimum Education:* Doctorate's Degree

**Project Manager - Med Evacuation Program - Intermediate**

*Functional Responsibilities:* The Contractor shall have a thorough understanding of medical IT systems and devices as well as knowledge of the environment and associated requirements (information assurance, systems security, etc.) required for integration and secure operation. The contractor shall be responsible for supporting coordination of meetings, schedules, documentation and liaison with external customers in the execution of requirements for reaching major acquisition decisions on implementation, integration, and execution of Medical Evacuation Program and technology fielding. The contractor shall interface with USAMMA's internal and external partners, to include product vendors, congressional liaisons and other services in the coordination of requirements, specifications, and product development.

*Minimum Experience:* Bachelor's Degree

*Minimum Education:* 4 years of experience

**Project Manager Senior**

*Functional Responsibilities:* Responsible for the overall management of the specific task order(s) and insuring that the technical/financial solutions and schedules in the specific delivery orders are implemented in a timely manner. Organizes, directs and coordinates the planning and production of all activities associated with assigned delivery order projects. Demonstrates competent writing and oral communication skills. Ensures quality products and services and delivered.

*Minimum Experience:* 12 years of experience

*Minimum Education:* Master's Degree

**Project Manager - Intermediate**

*Functional Responsibilities:* Responsible for the overall management of the specific task order(s) and insuring that the technical/financial solutions and schedules in the specific delivery orders are implemented in a timely manner. Organizes, directs and coordinates the planning and production of all activities associated with assigned delivery order projects. Demonstrates competent writing and oral communication skills. Ensures quality products and services and delivered.

*Minimum Experience:* 7 years of experience

*Minimum Education:* Bachelor's Degree

**Research Analyst**

*Functional Responsibilities:* Formulates/defines research and development scope and objectives for assigned projects. Devises or modifies procedures to solve complex problems considering capacity and limitations, operating time and form of desired results. Prepares detailed specifications from which research programs will be written. Responsible for program design, testing, and documentation. Has full technical knowledge of all phases of research application analysis and programming. Has good understanding of research analysis techniques and ability to apply them.

*Minimum Experience:* 2 year of experience

*Minimum Education:* Bachelor's Degree

**SME Clinical – Expert**

*Functional Responsibilities:* Provides extremely high level subject matter expertise for work described in the task. Provides advanced technical knowledge of medical coding and clinical documentation. Provides high-level functional systems analysis, design, integration, documentation, training, and implementation advice on complex problems which require doctorate level knowledge of the subject matter for effective implementation. Applies principles, methods, and knowledge of specific functional areas of expertise to specific task order requirements. Provides advice on esoteric problems which require extensive knowledge of the subject matter. Designs and prepares technical reports, studies, and related documentation, makes charts and graphs to record results, prepares and delivers presentations, training, and briefings as required by the task order.

*Minimum Experience:* 12 years of experience

*Minimum Education:* Doctorate Degree

**SME Utilization Management – Senior**

*Functional Responsibilities:* Leads and directs the utilization review staff. Determines policies and procedures that incorporate best practices and ensures effective utilization reviews. Manages and monitors reviews to ensure that patients are getting proper care in a timely and efficient manner as well as retrospective reviews once treatment has been completed. Provides analysis and reports of significant utilization trends, patterns, and impacts to resources. Develops methodologies to improve utilization of effective and appropriate services; Provides extremely high level subject matter expertise for work described in the task. Provides advanced technical knowledge and analysis of highly specialized applications and operational environment, high-level functional systems analysis, design, integration, documentation, training, and implementation advice on complex problems which require doctorate level knowledge of the subject matter for effective implementation. Applies principles, methods, and knowledge of specific functional areas of expertise to specific task order requirements. Provides advice on esoteric problems which require extensive knowledge of the subject matter. Designs and prepares technical reports, studies, and related documentation, makes charts and graphs to record results, prepares and delivers presentations, training, and briefings as required by the task order.

*Minimum Experience:* 12 years of experience

*Minimum Education:* Master's Degree

**Subject Matter Expert - Expert**

*Functional Responsibilities:* Subject matter expert in disciplines including engineering, science, medicine, technical research, education and training development. Performs as a recognized expert in specifications and/or utilization in a specific domain.

*Minimum Experience:* 5 years of experience

*Minimum Education:* Doctorate Degree

**Subject Matter Expert - Intermediate**

*Functional Responsibilities:* Analysis of business, functional, technical, activities and events. Responsible for documenting and strategizing process improvements for current business processes. Provide market research on conditions that impact the overall operational efficiency of an organization and identifying symptoms for process improvement. Ensures care of patients is provided in accordance with clinical guidelines and organizational standards. Ensures that project/department milestones/goals are met with efficiency; Provides extremely high level subject matter expertise for work described in the task. Provides advanced technical knowledge and analysis of highly specialized applications and operational environment, high-level functional systems analysis, design, integration, documentation, training, and implementation advice on complex problems which require doctorate level knowledge of the subject matter for effective implementation. Applies principles, methods, and knowledge of specific functional areas of expertise to specific task order requirements. Provides advice on esoteric problems which require extensive knowledge of the subject matter. Designs and prepares technical reports, studies, and related documentation, makes charts and graphs to record results, prepares and delivers presentations, training, and briefings as required by the task order.

*Minimum Experience:* Master's Degree

*Minimum Education:* 12 years of experience

**Subject Matter Expert - Junior**

**Functional Responsibilities:** The contractor shall demonstrate experience and ability to define the problems and analyze and develop plans and requirements in the subject matter area (PACS) for moderately complex to complex systems in the subject matter area. The contractor shall demonstrate the ability to coordinate and manage the preparation of analysis, evaluations, and recommendations for proper implementation of programs and systems specifications in the areas of risk management; life-cycle management; policy development, and methodologies in the functional area being addressed.

**Minimum Experience:** Bachelor's Degree

**Minimum Education:** 4 years of experience

**Subject Matter Expert Pharmacy – Intermediate**

**Functional Responsibilities:** Has high-level subject matter expertise in DoD and Navy Pharmacy business operations. Ability to provide strategic BUMED support through strategic planning, communication support, subject matter expert insight and data analysis of key pharmacy projects and business initiatives. Ability to conduct pharmacy briefings for BUMED and Defense Health Agency Pharmacy Operations Division leaders on current programmatic issues such as NDAA 17, Drug Takeback, Fiscal and Material Managers Training Course and implementation of standardized best pharmacy practices. Has prior experience working for Navy Medicine and is highly knowledgeable in pharmacy business operations/reports such as Pharmacy Budget Execution and Checkbook, Prime Vendor Credits monthly report, Manager's Internal Control Program Pharmacy Assessable Unit, Pharmacy Percent Retail Spend. Provides stakeholder engagement through cross-collaboration with Logistics, Resource Management, DoD/VA sharing and Patient Safety.

**Minimum Experience:** 12 years of experience

**Minimum Education:** Bachelor's Degree

**Supply Management Specialist**

**Functional Responsibilities:** Serve as the property custodian and assistant to the Property Book Officer involved in maintaining the organizational, unit and individual property. Shall request, receive, issue nonexpendable and selected durable property items to Primary Hand Receipt Holders. Assist with Government Furnished Property (GFP) requests, receipts, and transfers of Government Furnished Equipment (GFE) through the Government Property Administrator to defense contractors that support USAMMA. Assist with resolving problems with the DoD automated supply and logistics system through coordination with systems analysts and other appropriate technical personnel. Screen lists of excess property and supplies for the purpose of redistribution and cross leveling of assets within USAMMA. Performs total asset visibility rebuild with property team. Maintains the non-standard catalog file by providing non-standard line item numbers for all non-standard equipment on hand. Schedule and conducts special surveys. It is desired that the contractor has a minimum four-year course of study in an accredited college or university leading toward a bachelor's degree. It's desired that the contractor has prior one-year experience in the military occupation specialty 92Y or at least one-year experience in supply management field.

**Minimum Experience:** Bachelor's Degree

**Minimum Education:** 1 years of experience

**System Engineer - Junior**

**Functional Responsibilities:** The Contractor shall provide systems engineering support on systems, major system elements, and/or interfacing systems. Assists in development of strategic and implementation plans for information systems. Applies engineering disciplines to support strategic system migration. Contributes to system architecture and design. Assists in systems definition, trade-off and design activity. Reviews, evaluates, and analyzes design interfaces. Prepares, reviews, and evaluates interface documentation, specifications, test plans and procedures. Assists in definition, analysis and allocation of requirements. Supports system test programs and analyzes system testing. Conducts analysis of system requirements and components and supports system audits conducted to ensure intended system functionality and performance is achieved.

**Minimum Experience:** 2 years of experience

**Minimum Education:** Associate's Degree

**System Engineer - Intermediate**

**Functional Responsibilities:** Contractor shall have knowledge, skills, and experience with the DoD Acquisition System, Medical Information Management/Information Technology (IM/IT) systems, health information systems (tactical and sustainment base), medical acquisition devices (imaging and biometrics) and the tactical communication systems architecture to include all major subcomponents. Experience with Medical Combat Casualty Care (MC4) Systems/Subsystems, Telemedicine Advanced Tele-Radiology Command (TATRC), and AHLTA-T is preferred. Defense or civilian equivalent certifications in Project Management or Systems Engineering (PMP and/or DAWIA) are preferred. Contractor shall support the Government Project Manager by bringing the gap between system requirements and acquisition documentations and decisions

**Minimum Experience:** 4 years of experience

**Minimum Education:** Bachelor's Degree

**System Security Engineer - Junior**

**Functional Responsibilities:** The contractor shall assist with the addressing of IT security issues effecting multiple IT systems and projects. The contractor shall be familiar with a variety of system architectures, security concepts and techniques and supporting security tools or mechanisms. The contractor shall be familiar with potential security issues effecting Microsoft and other operating systems together with an understanding of a variety of security products and techniques. The contractor shall assist with the definition, direction and management of the security aspects of IT systems or networks in a development environment

**Minimum Experience:** Bachelor's Degree

**Minimum Education:** 1 year of experience

**System Security Engineer - Senior**

**Functional Responsibilities:** The contractor shall demonstrate experience and ability to address demanding IT security issues effecting multiple IT systems and projects. The contractor shall demonstrate experience in supervising other IT professionals. The contractor shall be highly conversant with a wide variety of system architectures, security concepts and techniques and supporting security tools or mechanisms. The contractor shall be highly familiar with potential security issues effecting Microsoft and other operating systems together with knowledge and understanding of a wide variety of security products and techniques. The contractor shall demonstrate the ability to review and assess proposed hardware, software and infrastructure changes for potential security impacts. The contractor shall demonstrate experience in defining, directing and managing the security aspects of IT systems or networks in a pressurized development environment. The contractor shall demonstrate the ability to support, liaise and consult with system and project management staff.

**Minimum Experience:** Bachelor's Degree

**Minimum Education:** 4 years of experience

**Systems Analyst - Senior**

**Functional Responsibilities:** Analyzes and evaluates new and existing systems and defines problems, develops new requirements and reports system design issues. Formulates systems strategy to parallel overall business strategies in conjunction with functional users. Analyzes problems and develops system requirements and program specifications from which programmers prepare detailed flowcharts, programs, and tests. Determines the most accurate, feasible and economical methods for data input and output including file specifications and communication protocols. Builds conversion procedures and system implementation plans to include user training and orientation specifications. Closely coordinates with programmers to ensure proper implementation of program, data availability, and system specifications. Relies on extensive experience and judgment to plan and accomplish goals. May provide consultation on complex projects and is considered to be the top level contributor/specialist. A wide degree of creativity and latitude is expected.

**Minimum Experience:** 5 years of experience

**Minimum Education:** Master's Degree

**Systems Requirements Analyst**

**Functional Responsibilities:** Contractor shall have knowledge, skills, and experience with the DoD Acquisition System, Medical Information Management/Information Technology (IM/IT) systems, health information systems (tactical and sustainment base), medical acquisition devices (imaging and biometrics) and the tactical communication systems architecture to include all major subcomponents. Experience with Medical Combat Casualty Care (MC4) Systems/Subsystems, Telemedicine Advanced Tele-Radiology Command (TATRC), and AHLTA-T is preferred. Defense or civilian equivalent certifications in Project Management or Systems Engineering (PMP and/or DAWIA) are preferred. Contractor shall support the Government Project Manager providing the anticipated engineering goals, metrics, and challenges for the technologies that will be procured as part of the Medical Evacuation Program integrated technical acquisition lifecycle. Contractor shall demonstrate familiarity with Army and DoD medical force structure; Army and DoD IT environment; DoD requirements determination; program planning, budgeting and execution processes; centralized acquisition strategies; integrated logistics support principles, and system engineering principles.

**Minimum Experience:** Bachelor's Degree

**Minimum Education:** 4 years of experience

**Technical Editor - Junior**

**Functional Responsibilities:** Able to accurately edit and format documents, including technical documents, functional descriptions, system specifications, user manuals, special reports, and any other customer deliverables and documents. Demonstrated experience and ability to work independently or under only general direction.

**Minimum Experience:** Associate's Degree

**Minimum Education:** 2 years of experience

**Technical Editor - Intermediate**

**Functional Responsibilities:** Able to accurately edit and format documents, including technical documents, functional descriptions, system specifications, user manuals, special reports, and any other customer deliverables and documents. Demonstrated experience and ability to work independently or under only general direction.

**Minimum Experience:** Bachelor's Degree

**Minimum Education:** 4 years of experience

**Technical Writer - Junior**

**Functional Responsibilities:** Demonstrated experience and ability to write a wide assortment of technical documents. Demonstrated experience and ability to plan, develop, maintain, rewrite, and produce computer software/systems related documentation including tailoring style and readability to user requirements. Ability to assist programmers and engineers in developing on-line documentation. Collects and organizes information for preparation of user manuals, training materials, installation guides, proposals, and reports. Writes reports, documentation (e.g., system specifications, operator manuals, reference manuals, and pamphlets) for information management systems and new releases of technical material; applying word processing, graphics and audio-visual communications techniques for technical or scientific subject matter; and assisting programmers and engineers in developing on-line documentation.

**Minimum Experience:** Associate's Degree

Writes reports, documentation (e.g., system specifications, operator manuals, reference manuals, and pamphlets) for information management systems and new releases of technical material; applying word processing, graphics and audio-visual communications techniques for technical or scientific subject matter; and assisting programmers and engineers in developing on-line documentation.

**Minimum Experience:** Bachelor's Degree

**Minimum Education:** 4 years of experience

### **Technical Writer - Senior**

*Functional Responsibilities:* Writes a variety of technical articles, reports, brochures, and/or manuals for documentation for a wide range of uses. Coordinates the display of graphics and production of published documents. Relies on experience and judgment to plan and accomplish goals. A wide degree of creativity and latitude is expected.

*Minimum Experience:* 5 years of experience

*Minimum Education:* Master's Degree

### **Trainer**

*Functional Responsibilities:* The Contractor conducts the research necessary to develop and revise training courses. Develops and revises these courses and prepares appropriate training catalogs. Prepares instructor materials (course outline, background material, and training aids). Prepares student materials (course manuals, workbooks, handouts, completion certificates, and course critique forms). Trains personnel by conducting formal classroom courses, workshops and seminars.

*Minimum Experience:* 4 years of experience

*Minimum Education:* Bachelor's Degree

### **Training Analyst - Intermediate**

*Functional Responsibilities:* Conducts the research necessary to develop and revise training courses and prepares appropriate training catalogs. Develops all instructor materials (course outline, background material, and training aids). Develops all student materials (course manuals, workbooks, handouts, completion certificates, and course critique forms). Trains personnel by conducting formal classroom courses, workshops, seminars, and/or research based/computer aided training.

Minimum Experience: 7 years of experience

Minimum Education: Bachelor's Degree

### **Training Specialist - Senior**

*Functional Responsibilities:* Delivers in-depth training programs and workshops to various entities. Monitors the effectiveness of training programs through individual or group performance results. Collects feedback on sessions from training recipients to use for future improvements to content and presentation. Develops new training program design and existing program enhancements including various forms of training aides such as lesson plans and training aids.

*Minimum Experience:* 12 years of experience

*Minimum Education:* Master's Degree
